

Rotary Park Master Plan

Have your say on the master plan being developed for the Rotary Park precinct.

The Rotary Park precinct is located in central Bacchus Marsh and includes a skate park, the Andy Arnold Centre, Young Street Kindergarten, a playground, rotunda, and open park space.

The Master Plan will help Moorabool Shire Council to set a vision for the precinct, guiding infrastructure development, future use and investment.

A key part of this master plan project is to investigate the inclusion of a new youth space for young people, youth services programs and events.

Seeking Community Feedback

We have prepared a draft concept plan of the precinct and we are seeking the community's feedback on the proposed layout. We would like to find out what you like about it, and what you think could be improved.

More specifically, the survey asks:

- How often you use the precinct and how you get there.
- What you primarily use it for.
- What you would like to see improved.
- The existing activities or facilities you think should not be retained.
- Activities or facilities not currently in Rotary Park that you would like to see provided.
- Which element of Rotary Park you think should be a priority for future funding and development.
